

SVPV PRESCHOOL

SVPV Kids Reinvents Education with Expansion and Innovation

Dr Kiran Patel
Founder Chairman,
Sardar Vallabhbhai Patel
Vidyalaya

SVPV Kids, a longstanding institution known for its pioneering approach to early childhood education since 1983, is breaking new ground. Originally founded by Dr. Kiran Patel, the state board school—which offers education from pre-school to K-12—has now expanded its academic offerings. In 2024, the school introduced a

CBSE curriculum stream and plans to evolve this new stream into a full-fledged K-12 system, reflecting its commitment to innovative, holistic learning.

The school's distinctive philosophy, which holds that every child is unique, underpins a proprietary curriculum that combines elements of Reggio Emilia, Waldorf, Montessori, and play-based learning. This approach is designed to nurture the whole child, creating an environment where creativity and exploration flourish. Bright, airy classrooms, secure outdoor play areas, and specialized spaces for art, speech, drama, and pretend play work in tandem to foster both academic and personal growth.

SVPV Kids also caters to the needs of modern families by offering flexible daycare programs. With a teacher-child ratio that allows for personalized attention,

"The most valuable gift we can give a child is a passion for learning"

Mr Rakesh Patel
MD & Trustee

educators act as mentors—celebrating every achievement and inspiring children to discover new possibilities. "SVPV Kids gave my child more than an education—it provided memories, values, and a strong foundation for life," noted one parent, encapsulating the school's profound impact.

Further setting itself apart is the revolutionary iCan Curriculum

System. By incorporating "I Can" statements into daily learning and blending digital with physical experiences, the system instills a growth mindset in young learners. This forward-thinking methodology not only prepares children for a future driven by technology and innovation but also builds resilience and confidence.

The institution's commitment to excellence is also evident in its state-of-the-art facilities and stringent safety standards. Interactive learning zones and meticulously audited spaces underscore SVPV Kids' dedication to fostering an environment that is as secure as it is inspiring.

Reflecting on its enduring legacy, SVPV Kids continues to honor the timeless sentiment expressed by Maria Montessori: "The child is both a hope and a promise for mankind." With over five decades of expertise and recent

accolades—such as the Innovation in Preschool Curriculum award in 2024—the institution is poised to lead the way in early childhood education.

Under the visionary leadership of Managing Director and Trustee Mr. Rakesh Patel and the board of trustees, SVPV Kids is not only expanding its academic streams but also setting new benchmarks in nurturing future-ready learners.

As SVPV Kids redefines early education, it stands as a beacon of

innovation and care—a true testament to transforming learning into an adventure.

HAPPY MINDS INTERNATIONAL

Redefining Early Childhood Education

In a city where parents often struggle to find a trustworthy and nurturing preschool, Happy Minds International stands out with its unique approach. With multiple centres across Maharashtra, this preschool, daycare, and activity centre has earned a solid reputation for its transparency, safety, and high-quality education for children aged 4 months to 10 years.

Happy Minds International is proud to follow the high standards set by the National Association for the Education of Young Children (NAEYC), a global benchmark for early childhood education. This ensures that children get the best possible start, with a focus on learning through play, curiosity, and creativity.

Transparency is at the heart of the institution. Parents have live access to CCTV feeds, giving them peace of mind as they can see their children in a safe and caring environment. The adult-child ratio is

carefully maintained to guarantee personal attention, helping children feel secure and supported. The curriculum blends play-based learning with structured activities, encouraging children to think critically and engage with the world around them. It is designed based on the theory of Multiple Intelligences, recognizing that children learn in different ways—whether through words, numbers, pictures, music, or physical activity. The team, led by experienced educators, undergoes regular training to stay updated with the best practices in early

childhood development.

Health, nutrition, and safety are core aspects of the program. The centers provide nutritious meals, ensure regular health check-ups, and maintain strict hygiene protocols to promote the overall well-being of the children.

Safety and hygiene are top priorities. Clean, secure spaces, along with trained staff, create a safe haven for children to learn and grow.

Happy Minds International is more than just a preschool; it's a place where children feel happy, cared for, and ready to explore the world around them. With recent accolades from EducationWorld, The Times of India, and Education Today, it continues to set the gold standard in early childhood education across Maharashtra.
