Excellence in every child: Nurturing purpose and Joy in Learning

MD, Mr Rakesh Patel
Managing Trustee

At SVPV, excellence isn't just a goal, it's a mindset. With both National and State curriculum pathways, the school is known for its strong academic foundation, values-driven education, and future-ready approach to learning.

In line with the National Education Policy (NEP) 2020, SVPV has transformed its classrooms into dynamic spaces for discovery, dialogue, and hands-on learning.

Our teaching model emphasizes real-life application and inquiry-based exploration. For instance, Grade 4 learners study water conservation through surveys, presentations, and problem-solving activities. Educators blend experiential learning with storytelling, multi-sensory

techniques, and differentiated instruction to meet every learner's needs.

What sets SVPV apart is its 360° quality intervention model. Phonics-based reading in early grades and career-readiness programs in senior levels are backed by personal care, ongoing teacher training, real-time assessments, and strong parent partnerships.

As a National Curriculum Framework-aligned school, SVPV promotes multilingualism, vocational learning, and values-based education. Students learn Hindi, English, Spanish, Marathi, and introductory Sanskrit. They also engage with emerging domains like STEM, Robotics, Electronics,

as well as creative and grounded pursuits like pottery and gardening. SVPV encourages public speaking through news channel broadcasts, school radio, and stage performances. Arts, digital literacy, and academic integration go hand-in-hand. A Grade 5 student might be seen coding a game one hour and performing a classical dance the next. What truly makes SVPV unique is its ability to blend tradition with innovation, offering the rigour of structured curriculum with the flexibility of child-centered growth. As education evolves, SVPV stays rooted in its mission: to raise thoughtful, confident, and compassionate learners who are ready for the world ahead.
